

Now Available - Advanced Technology Stainless Steel Exhaust Stacks.
The only FAA PMA Exhaust System for Navion, A,B,D,E,F,G,H and L-17
with O-470, IO-470, IO-520, IO-550 engines.

New and Advanced **Header** Technology

- Now incorporates multiple slip-joints limiting the possibility of cracking, creating a more reliable exhaust stack
- Fabricated from high grade stainless steel tubing
- An increase of up to seven horsepower over OEM
- Equalized back pressure across the cylinders
- Expect to see lower operating temperatures

Optimal Design Creates **More Horsepower** Exhaust System Comparison

FAA Repair Station #UWDR792L • EASA.145.6155
